

Thank you for registering to exhibit at the 2017 US Global Clinical Supplies Group (GCSG) Annual Conference. The objective of the GCSG conference is to provide a forum for the open exchange of ideas, regulatory changes, technological advances and information of a non-confidential nature related to clinical supply activities. We strive to promote closer professional relationships among personnel engaged in clinical supply activities as well as encourage closer relationships between the clinical supply group and other segments of the Pharmaceutical/Biotechnology Industry. In keeping with this purpose, exhibitors are encouraged to be educational, communicative and informative in their exhibit displays and contact with attendees.
