

Proposal Example

Name: Mary Smith

GCSG Forum: European Knowledge Forum

Proposal Type: Pre-meeting Seminar

Proposal Topic: Forecasting

Proposal Description: 6-hour intermediate course provided attendees with an overview of protocol interpretation, clinical supplies forecasting using spreadsheets and forecasting systems, collection of information required for creating a forecast and adapting and maintaining the supply plan as the study progresses. Attendees will learn how to create individual and program level study plans as well as how to convert the forecast to manufacturing demand.
