Essentials of Cell & Gene Therapy Supply Chains

	UK	US East Coast	US West Coast	Title	Description	Instructors
Tuesday, Oct 13	17:00 - 19:10 BST	12:00 PM - 2:10 PM ET	9:00 AM - 11:10 AM PT	Introduction	Cell & Gene therapies are increasing at an impressive rate. It is important to understand the manufacturing processes and supply chain requirements of these life-saving therapies. This boot camp will describe and contrast the different manufacturing and supply chain requirements of autologous and allogeneic cell and gene therapies. Supply Chain consideration such as temperature, scalability and regulations for transport will be discussed.	Scott Ohanesian & Lindsay Belcher
				Science & Manufacturing		Paul Ingram
				Labeling & Regulatory		Beth Gardner & Lindsey Goller
Wednesday, Oct 14	17:00 - 19:10 BST	12:00 PM - 2:10 PM ET	9:00 AM - 11:10 AM PT	Sites & Systems		Matt Pecora & Akshay Peer
				Clinical to Commercial		Matt Yedwabnick & Matt Pecora
Tuesday, Oct 20	17:00 - 19:10 BST	12:00 PM - 2:10 PM ET	9:00 AM - 11:10 AM PT	Supply Chain Considerations		Scott Ohanesian & Sue Lee
				Bio Storage	Rob Jones	
				Review		Scott Ohanesian

Pharmacy & Nursing CE's available. Testing must be completed no later than 10-Nov to receive credit from the University of Wisconsin.
